Tioga County Community Law Enforcement Survey

#	RESPONSES	DATE
1	Keep us safe from criminal elements.	12/7/2020 8:06 AM
2	works well with the Legislature, takes time to listen to concerns	12/6/2020 1:21 PM
3	As a long time EMS provider, they work well on scene with us. i.e. ensure the scene is safe for us to approach/enter, stay nearby while working on a questionable scene, keeping bystanders away, when requested, standing in a specific position to protect/shield a patient, holding a door open for us to move thru weather carrying a patient or equipment. I find deputies are often easy to speak with, work with and find their interactions with the public to be professional. The vast majority of the officers handle the very taxing and difficult job well. Those officers are a wonderful example of what a Law Enforcement Officer should be.	12/5/2020 6:03 PM
4	Patrol I think that the department does a great job of outreach (toy drives, community events, etc.) But I would rather see them become involved in each community. Work with residents to patrol the area and help - and then follow through when called.	12/4/2020 8:44 AM

Like ever work force out there you have good and bad. All police should be treating all people regardless of race, religion, sex equally. They are out there to help. Not to intimidate. People are nervous when pulled over, no need to make it worse. Don't make up a lie just because it's a younger adult you pulled over and you think they had to have done something wrong. Don't blame them for accidents just because they are young, black, etc. use your power for good. Save your anger for the real criminals. Everyone needs education on how to deal with different personalities, people, situations etc. in my work within the OPWDD system education was on going. We were always having training on how to deal with these individuals because each and everyone of us is different. And unless you have continuing education in these areas. You really don't know how to respond to them. Again we wish we could provide better answers but we really don't deal with the police to often.

293	Community Involvement Although we often call the State Troopers, since they are right near our business, the Sheriff's department is attentive to the community...the governor's and democratic party efforts to minimize the job our law enforcement officers do, is an attempt to de-legitimize law enforcement. This is strictly political. It's garbage. So to answer the question...aside from a few bad apples in this country, I feel that ALL law enforcement does ALOT well. Our public safety is what matters, not de-funding or lessening our officers...not lessening the importance of what they do. As crime rises, the need rises. Quite frankly I'm over this and am only interested in our Governor being voted out when he is up for re-election. I back the blue and will continue to do so.	11/23/2020 3:34 PM
