SUSTAINABILITY MANAGER

JOB CODE: 3402
DEPARTMENT: Tioga County Public Works Department
CLASSIFICATION: Competitive
SALARY GRADE: Non-Union
ADOPTED: Adopted Reso. 57-18; Revised 01/20; Tioga Co. Personnel & Civil Service

DISTINGUISHING FEATURES OF THE CLASS: This work involves responsibility for performing duties related to waste reduction and reuse, and energy sustainability incentives. The incumbent serves to promote environmental, energy and economic sustainability within Tioga County through coordinated efforts which includes developing, implementing and managing hazardous waste removal and recycling programs; analysis and development of policies related sustainability initiatives; and providing community education & outreach. Work is performed under the general supervision of the Commissioner of Public Works and the Deputy Commissioner of Public Works, with considerable leeway for the use of independent judgment in carrying out duties and assignments. Assignments are received through conference with the Commissioner and Deputy Commissioner and the status of projects is reviewed through reports. May lead and direct the work of others within the context of program guidelines. Does related work as required.

TYPICAL WORK ACTIVITIES: (Illustrative only)

- Monitors compliance of all material recovery and disposal under state and local regulations;
- Develops capital and operating budgets for recycling and hazardous waste programs;
- Identifies, develops, and maintains grants that fund programs and services associated with sustainability and public works projects;
- Establishes contracts for recycling, hazardous waste, debris management, and tire programs;
- Prepares and implements a public education strategy in regard to recycling, hazardous waste, water and energy conservation, alternative fuels, and renewable energy;
- Develops sustainability project goals, objectives, initiatives, or strategies;
- Conducts research and analyzes data related to specific environmental and sustainability issues or projects;
- Assesses or proposes sustainability initiatives;
- Prepares oral and graphic presentations and written reports to be given before legislative bodies and the public;
- Prepares studies in regard to site selection for pilot projects, drop-off areas and the material recovery center;
- Implements and evaluates pilot projects;
- Solicits and administers contracts for markets and operating agreements;
- Participates in meetings with municipal officials, consultants, and advisory groups regarding the County’s recycling and hazardous waste programs;
- Maintains contact with municipal recycling and hazardous waste officials in other counties and with other authorities to share information and explore cooperative recycling ventures;
- Develops, prepares and maintains various plans and reports for State and Federal agencies.
